DELEGATION FROM G.W.V.A. AT COUNCIL

Ask that: Soldiers Be Given Privileges of Allowing Property to Revert to Town as Under Tax Recovery Act—Need of Resident Doctor Brought Up.

The regular meeting of the town council was held in the council chamber last Monday evening. Mayor Bruce occupied the chair and the following councillors were present: Mastru, Macdonald, Evans, Armstrong, Oakley, and John Smith.

Mayor Bruce having and adoption of the minutes a delegation from the Veterans Association was present, and was heard. On behalf of the delegation H. W. Wood drew attention to the fact that recovery of lost property in the town had received notice from the town solicitor with reference to their taxes on the said property. He asked the council to consider the same privilege as to the disposal of their property as was extended to other property owners under the "Tax Recovery Act" which was in effect when the boys were overseas. By this act owners were allowed to pay any property which they did not wish to protect, revert to the town and pay taxes on only such property as they wished to retain. He said that unless this privilege was extended then it would mean that many of them would be deprived of their property by the adoption of a defaulters' list which required that property owners have all their taxes paid in full. He said the boys appreciated the protection extended them during their absence, but unless this request was granted he felt the Veterans would develop into a disadvantage, as the accumulated arrears would be hanging over their heads, a liability which few of them would be able to meet.

Other members of the delegation along similar lines and a variety of different cases were discussed.

The mayor stated that this matter had been discussed by the council at a previous meeting and he had been decided to deal with each case on its merits. The council then adjourned.

The secretary was authorized to arrange a resident doctor for the town and to introduce the secretary and councilmen in advertisement for same. Council then adjourned.

No Activity Now At Kiel Canal

The Renter correspondent with the international board commission at Kiel says that the commission has been in the canal since last Monday and left Monday for Berlin. There was virtually no activity around the harbor during the stay of the committee. All types of German warships were anchored in the harbor. Only two destroyers and four submarines were in commission. A 23,000-ton battle ship left completed and untouched during the last 14 months, and other German vessels, their ordnance, mines, guns and engines and funnel stacks, were also to be seen.

The whole scene in the dockyard and harbor, says the writer, gave a most vivid idea of the complete submission and defeat of the German navy. The spirit of the German seaman was not in the slightest braced. They sang patriotic songs on the arrival and departure of the commission.

New Weapon For The British Navy

The British navy may soon be given a new and "unprecedented" weapon in a large caliber shell which will pierce the heaviest armor with little chance, said Sir Robert Hamilton, chairman and English director of Halden's Ltd., steel manufacturers, recently. He indicated that possession of such a shell during the Great War would have been of incalculable value to the British fleet.

Will Have Concert Here Next Sunday

H.W. Wood Elected President of U.F.A.

Amid the wildest, possible enthusiasm over witnessed at a U.F.A. convention, H. W. Wood was re-elected for the fourth term last Thursday morning at the U. F. A. convention, receiving a majority of 1,000 votes over A. C. May, of Provost, the only other nominee for the presidency. The total vote polled was 1,000.

His nomination of the U.F.A. was made by E. J. Evans, chairman of the organizing committee, and the applause which followed did not subside for several minutes.

In addressing the convention, Mr. Wood stated that he appreciated the call of the bell to him, and that his service had been questioned. "It has been questioned by the common sense of the community," he said, "and it is not a personal matter; it is a difference of opinion, and in your vote you have indicated what I have been trying to do for you. I will continue to give you the very best service that I can without any qualification."

He then went on to say that he was a victim on the greatest problems that are confronting us.

Eleven Parties In Local Legislature

Group representation as discussed and favored at the convention of the United Farmers of Alberta, is more prominent in Alberta than in any other province of the Dominion, according to the opinions of several political exponents of the province. Lobby discussion has been the order of the day at the fact that the Alberta assembly is comprised of 11 distinct groups. Although the majority of the legislature is comprised of farmers, the members were returned by 11 different parties.

A survey of the legislature resulted in the following classification: Lib. & Conservative, Farmer Liberal, Farmer Conservative, Soldier, Non-Farmer, Labor, United Farmers of Alberta, Independent Conservative and New Liberalism.

Big Return from Clover Seed

Nineteen acres on the Tilley ranch of the C. P. R. yielded twenty thousand bushels of clover seed, according to the report of the seed inspector. The value of this crop as fodder is being estimated at \$40,000. Don H. Bark, head of the department in charge, has been seized with wires from the United Farmers of Alberta, and is now in the process of securing a large quantity of clover seed for the purpose of distributing it to the farmers of the province.

Local Winners in Victory Loan Essay

Prizes for the essays in the Victory Loan campaign, open to school children of grades nine, ten, eleven and twelve, have now been allocated. The department has received the best essays in the province and also for the best in each school. A number of scholars have been selected and the following were the local winners: Grade eleven, Dora Hicks; 2nd, Ester Hollings; in the grade ten, Nannie Learmonth; 2nd, Raymond Klindke.

The winner of a first in each school, is entitled to an engraved silver medal, and the second to a bronze medal, engraved with the name of the pupil, and name of school.

HON. A. C. MacLean Who has been offered the portfolio of Public Works in the Union government and who is still undecided.

Local Oddfellows Install Officers

After the regular meeting of the local Oddfellows lodge held on Jan. 28th, the officers for the coming year were installed. The following officers were elected: N. G. D. McLachlan, V. G. J. Bradley, R. Bee, W. S. Smith, F. L. C. May, of Provost, the only other nominee for the presidency. The total vote polled was 1,000.

Sudden Death of Mrs. D. Williamson

It was indeed a sad and sudden shock to the community when the news of the death of Mrs. D. Williamson was received. She was a well-known and popular member of the community, and her death was a great loss to her family and to the community.

Peace Treaty Men Are Soon Forgotten

It is interesting to note that the men who were instrumental in securing the peace treaty are now being forgotten. The public has turned its attention to other matters, and the names of these men are no longer mentioned.

Canadian Money Takes Another Drop

A further break in the Canadian exchange rate has been reported. The Canadian dollar has fallen further against the United States dollar, and this has caused concern among Canadian exporters.

To Inquire Into National Marketing

The advantages and disadvantages of the national marketing of grain and other produce will be fully inquired into during the coming year by the U. F. A. The committee will be introduced at the night session on Thursday instancing the executive to secure all possible information as to the practicability of this. The preamble of the resolution held that a permanent system of this kind would be of great value to the farmer in the handling of all commodities and business. There was very little discussion on the subject, as it was introduced at a late hour, and there is no doubt that it had been introduced earlier in the evening the subject of the resolution would have proved a fruitful source of debate. The policy of national marketing, with the possible difficulties that it might involve, was discussed by J. R. Murray, assistant general manager of the U. G. G., who was followed by C. R. Jones, general manager. The resolution was put to the meeting and was carried by a large majority.

Censorship on Literature Removed

The censorship on books and literature generally, which was in operation during the war period and until a short time ago, has been removed. The question of having a censor in any way justified the criminal code, just as before the war, but all other censorship regulations are off.

Gouin May Enter

Dominion Cabinet

Some interest has been aroused by the fact that at the recent banquet of the manufacturers at Quebec, at which M. J. Arthur Meighen and Sir Lomer Gouin were the chief speakers, the latter made a rather strong protectionist speech, which does not seem to have been reported in published accounts of the meeting. This attitude of the premier of Quebec is not surprising, as it has long been known how his sympathies lay, and he was no doubt reflecting the pretty widespread opinion in his province.

Sir Lomer Gouin's speech is said by those who heard it, to have been very sympathetic to the maintaining of moderate protection and delivered as it was after the announcement of his retirement from provincial politics, has aroused considerable speculation and a revival of the rumors that he might enter a reconstructed Unionist cabinet.

WOMEN STUDY MEDICINE.

An interesting feature of the work in the Faculty of Medicine, in the University of Alberta, is the number of women students who are preparing for the medical profession. In first year medicine, of seventy-five students, five are women; in second year medicine, of thirty-two students, three are women; while in the third year, out of twenty-nine students, three are women. These figures indicate that medicine is more than holding its own among the professions in the appeal which it makes to women.

U. S. LOAN TO AUSTRIA.

Congress will be asked by President Wilson to authorize a loan of \$150,000,000 to Austria, Poland and other European countries and Armenia for food relief as requested by Secretary Clegg. At the White House it was said the president had taken a "deep interest" in the proposed loan and that within a few days he would write a letter on the subject to leaders in Congress.

MANY NEW CASES OF

INFLUENZA IN NEW YORK.

Dr. R. S. Copeland, city health commissioner of New York, predicted that there would be more than four thousand influenza cases reported in New York Wednesday but that the present low death rate would be maintained. Forty-seven deaths and 3,663 new cases of influenza were reported Tuesday, the highest number since the outbreak began about a week ago.

SUGAR PLANTERS STRIKE.

The Japanese federation of labor of Hawaii called a general strike of Japanese sugar plantation workers for February 1. Twenty-four thousand men will be affected by the federation's call, officials said.

The Royal Canadian Mounted Police opened a post at the mouth of Ceppeo Mine river on the Arctic ocean, the most northerly and isolated point in the jurisdiction of the force.

A last big offensive on the cash war gratuity bonus will be launched by the Great War Veterans' Association, when the special convention of the G. W. V. A. of Canada assembles in Montreal on March 22.

Up to the end of the year 1932, 112,000 bushels of the season's wheat were shipped from Leithridge sector. The wheat harvest was heavier here than in any other district, and these figures bear striking evidence of the value of irrigation.

Mayor Brown of Medicine Hat, announces that the city's irrigation scheme will be carried through. Reservoirs are to be built to hold the flood waters of the Seven Persons and Ross creeks. It is expected that the project will water 15,000 acres.

The fact that the war-stricken countries of Europe are looking more and more to Western Canada for the replenishment of their depleted stocks of foodstuffs and live stock is evidenced by the numerous large contracts that have been placed by the Belgian government with Alberta.

Why You Should Deal at Home!

Because by so doing you are helping to build up your own town. Every dollar you spend in your own town helps to build up your own Schools, Churches, Roads, Sidewalks, Sewers, Waterworks, etc. The money you send out of town helps to build up some other place, and increase the value of some other man's property instead of your own.
